## CALLS ON DRAFT BOARDS TO FILL THE VACANCIES

Caused By the Discharge of 5000 Men  
at Camp Devens For Physical Dis-  
abilities and Other Reasons

### VERDICT FOR THE PLAINTIFF

Thomas Stewart Is Awarded  
\$11,963 in the U. S. Dis-  
trict Court.

In the United States District Court  
on Friday morning the jury in the  
action of Thomas Stewart vs the Bos-  
ton and Maine railroad, after being out  
all night returned a verdict of \$11,963  
for the plaintiff. This action was to  
recover for personal injuries, the  
plaintiff having had both legs cut off  
at Manchester.

The case of Fellows vs the Boston  
and Maine railroad was immediately  
called and a jury empaneled. This is  
an action for the death of Oscar Fel-  
lows of Sanbornville, a brakeman on  
the railroad who was killed, owing,  
the plaintiff alleges, to a defective coup-  
ling on the train. The action is  
brought by the Administrator of the  
Fellow estate and Hollis and Murchio  
with W. N. Rodgers for the plaintiff,  
and Streeter, Woodward and Sullo-  
way for the defense, with Attorneys  
Woodworth and Sullivan trying the  
case.

Henry E. Robinson of Tamworth,  
was arraigned before Judge Aldrich  
charged with misappropriation of  
funds of the U. S. through the post-  
office of which he was postmaster. He  
pleaded guilty and was fined \$100 and  
cost.

#### NOTICE.

Ladies' Auxiliary, Spanish War Vet-  
erans' whist party, N. E. O. P. hall,  
Friday evening, Nov. 2. Refreshments.

(By Associated Press)

Ayer, Mass., Nov. 2.—Major J. M.  
Wainwright, assistant chief of staff,  
has called on the draft boards of the  
New England states and northern  
New York to fill the vacancies caused  
by the discharge of 5000 men for phys-  
ical disability and other reasons.

The first contingent of 300 men from  
Boston are expected to arrive tomor-  
row.

The call was not issued to all the  
boards but to military departments of  
several of the states.

### GOVERNMENT AUTHORIZES LOAN TO RUSSIA

(By Associated Press)

Washington, Nov. 2.—The govern-  
ment has authorized the loan of \$31-  
700,000 to Russia. The action by the  
United States is attributed to the elo-  
quent appeal that was made by Pre-  
mier Kerensky to this country for  
assistance.

### PREPARING FOR GREAT COUNTER OFFENSIVE

(By Associated Press)

Italian Headquarters in Northern  
Italy, Nov. 2.—The Italian army and  
allied forces are preparing one of the  
greatest counter offensive battles that  
has yet taken place along the Taglia-  
mento River, according to a statement  
issued by the Italian war office today.

## KERENSKY SAYS RUSSIA STILL IN THE STRUGGLE

Help, However, is Urgently Needed From  
the United States As the Country is  
Worn Out By the Long and Strenuous  
Results of the War

(By Associated Press)

Petrograd, Nov. 2.—In view of the  
report that Russia was out of the war,  
Premier Kerensky in a public address  
today, frankly denied the statement.  
He made an eloquent address in which  
he told of the present conditions in  
Russia and asked the United States  
to assist his country.

He said: "Russia is worn out by the  
long and strenuous results of the war  
but we are a long ways from being  
out of it. Russia is still in the strug-  
gle and the people that say she is not,  
have lost their minds."

During the address the Premier re-  
ferred to the years that Russia has  
fought her campaign unassisted with-  
out such assistance as is now in  
France from Great Britain and the  
United States.

The Premier then continued: "Help  
is needed urgently from the United  
States. We ask this as only our rights.  
The United States should give aid in

the form of money and supplies and  
should not lose faith in Russia. Amer-  
ica can assist in the present needs  
by sending shoes, leather, iron and  
money. It would be impossible for the  
United States to send troops on ac-  
count of the great transportation dif-  
ficulties."

When asked as to the morale of the  
Russian army and people the Pre-  
mier answered: "The masses are worn  
out economically, and they doubt the  
possibilities of attaining their hopes."

### CAUSED A SENSATION AT NATIONAL CAPITAL

Washington, D. C., Nov. 2.—The  
statement issued by Premier Keren-  
sky relative to the present war in  
Russia being far from ended and his  
asking the United States to assist  
Russia, caused somewhat of a sensa-  
tion among the American officials  
and the allied diplomats in this city  
today.

## TEN GERMAN AIRPLANES BROUGHT DOWN

As They Were Attacking Over  
French Soil on Thursday.

(By Associated Press)

Paris, Nov. 2.—Ten German air-  
planes were brought down by French  
aviators yesterday, as they were at-  
tacking over French soil, says an of-  
ficial statement issued by the French  
war office today.

The statement says: "In reprisal for  
the German air raid over Dunkirk,  
our machines dropped 5500 pounds of  
bombs on Offenburg and Baden yes-  
terday."

The statement also contained a re-  
port from the Alsace front where it is  
said that an artillery battle of con-  
siderable violence is in progress.

## GERMANS ARE REPULSED WITH HEAVY LOSS

(By Associated Press)

Rome, Nov. 2.—According to an of-  
ficial statement issued by the war of-  
fice today the Austro-German patrol  
has reached the Tagliamento river,  
along which the Italians are making  
their stand. The attack by the enemy  
was repulsed with a heavy loss to the  
Germans.

## LAWRENCE MAN DIES IN FRANCE

(By Associated Press)

Lawrence, Mass., Nov. 2.—George  
Killett, aged 20, a former resident of  
this city, has been killed in action in  
France with a Canadian contingent.  
His parents received the notice of his  
death today. Until now it was be-  
lieved that Killett was drowned when  
the steamer Arabia was sunk.

## THREE GRANTED A DISCHARGE BY WAR BOARD

Two Under Dependent Rule  
and Other Was Physi-  
cally Unfit.

The local war board today granted a  
discharge from the draft army for two  
men, Marvin Eliza George of East  
Kingston and Oliver Morin of New-  
market. The case of each was ordered  
opened by Adjutant General Howard  
on the appeal of the wives of both.

Oscar Elmo Peyach of Hampton,  
who has been an inmate of a Boston  
hospital for several weeks, was re-  
examined physically today and ordered  
discharged. He was previously exam-  
ined Sept. 21. George and Morin  
had previously applied for exemption  
under the dependent rule.

## ATTEMPTED TO TAKE HIS LIFE

John Walsh of Portland Tries  
Hanging at Police Station  
and Fails.

John Walsh, who claims Portland  
as his home, and a bell hop by oc-  
cupation, attempted to take his life  
in the police station this forenoon by  
hanging. He had arranged to carry out  
the rash act with the aid of his bolt  
led up to the cell grating. Just as the  
hanging began, a Russian prisoner in  
the corridor attracted the attention of  
the police who rushed in just as the  
stray gave away and allowed Walsh  
to drop to the floor. He is 23 years of  
age and was arrested on Congress  
street by Patrolman Condon. The at-  
tempted suicide did not calm him any  
and he still showed the effects of a  
jag by trying to break down the cell,  
and a continual banging of a tin dip-  
per, howling, etc.

## THREE OFFICERS WERE KILLED IN MUTINY AT KIEL

Mutiny Was the Result of An Attempt  
to Draft the Sailors as Members of  
the Submarine Squadron

(By Associated Press)

London, Nov. 2.—Three officers and  
a number of German sailors were  
killed in "another" mutiny at Kiel  
early in September. The news of the  
mutiny has been suppressed until to-  
day when the Daily Express printed  
the news as coming from an authen-  
tic source.

The mutiny was the result of an at-  
tempt to draft the sailors stationed on  
ships in the harbor at Kiel as members  
of the submarine squadron.

The entire crew of two of Germany's  
large dreadnoughts participated in the  
mutiny. The ships were the Kron-  
prinz and the Scheswig-Holstein.

Admiral Schmidt, in command of  
the Kronprinz was thrown overboard  
by the men in his command. He was  
rescued and forced to leave Kiel. The  
aid to Admiral Schmidt and another  
officer were also thrown into the sea.  
One officer, Lieut. Raul, that attempt-  
ed to quell the disturbance was thrown

overboard after receiving several deep  
stab wounds. Similar scenes were en-  
acted aboard the Scheswig.

The officers that were killed as well  
as the men were mostly members of  
the Prinz's crew where the distur-  
bance was the worst.

All surviving men that took part in  
the mutiny have been arrested and  
will be tried by court martial.

### THE WEATHER

Forecast for Portsmouth and Vicin-  
ity.—Generally fair tonight and Satur-  
day; little change in temperature; west  
to southwest winds.

Cor. Fleet and Congress Sts.

## COATS, SUITS DRESSES

Constant arrival of New Models makes a visit to our  
ready-to-wear department desirable.

Styles were never prettier or of more practical utility  
than at the present time.

**L. E. STAPLES**  
MARKET STREET

## SUITS OF UNUSUAL EXCELLENCE

There's a special reason for the selection of every suit in this store—some point  
of superior style, an excellence of quality or a price that is more than ordinarily  
attractive. This is why in selecting here your choice will be highly satisfactory at  
the time but continue as long as the suit shall last. These are but a suggestion of  
many exclusive styles.

All wool suit of brown novelty, wide collar, with plush edge, wide belt and plush  
covered buckle, \$18.99.

Fine quality, black French serge suit with satin lined coat in pretty tailored style,  
for \$25.00.

Grey and brown silvertone suits in beautiful tailored styles, \$45.00.

Taupe, wine and green broadcloth suits, with fur collar and cuffs of beautiful  
quality, \$57.00.

**Geo. B. French Co.**

## FOOTBALL GAMES OF INTERSECTIONAL INTEREST

(By Associated Press)

New York, Nov. 2.—Football games of intersectional interest promise to be the feature of Saturday's schedule on eastern college gridirons. On the army plains at West Point the Cadet eleven will meet the Notre Dame team of the Middle West, while at New Brunswick, N. J., the Rutgers combination will tackle the powerful southern team representing West Virginia university. Several other games of almost equal prominence are down for decision, including the Brown-Syracuse, Dartmouth-Penn. State, Cornell-Cornegie Tech, and the Pennsylvania-Lafayette games.

The probable outcome of these battles is a wide difference of opinion among close followers of football, each of the competing elevens having a number of enthusiastic supporters who confidently predict victory for their favorites. In almost every case these teams are leading representatives of their respective sections with excellent records in the games to date and possessing players of more than ordinary gridiron ability. Although not all of the combinations have reached this period of the season without the taste of defeat, their showing even when outscored, has been such as to stamp them dangerous rivals under any conditions.

This is particularly true of Notre Dame which faces the unbeaten army team at West Point tomorrow. The Indian team held Wisconsin to a no-score tie early in the season; were defeated by the strong University of Nebraska eleven 7 to 0, a week later and followed this reversal by gaining an overwhelming victory against So. Dakota last Saturday. As has been the case during the last few years Notre Dame has shown great proficiency and use of the forward pass. In addition to this aerial attack however, the western players are well versed in the more prosaic methods of advancing the ball and if they can be any criticism of their game, it lies in the possible development of the offense at the expense of their defense.

While the soldiers have played more games this fall than their opponents of the morning, it is doubtful if the army has faced elevens of the calibre that have opposed Notre Dame. West Point, however, opposes a team of unusual strength and resources this season and with Oliphant, Wickes and possibly Van Degrift in the line-ups the Cadets will present both a first and secondary defense which should prove difficult for Notre Dame to pass through or over for consistent gains. This same combination in possession of the ball is likely to be a hard one to stop and for that reason it is thought that the army will have a slight edge on the visitors in the final analysis.

Brown's victory over Colgate last week naturally tends to make the Providence team a slight favorite over Syracuse but there appears to be little choice in the playing ability of the two teams. Although defeated by Pittsburgh the collegians have won impressive victories over both Rutgers and Tufts and there is no question as to the power and drive over the orange line and backfield. It is unlikely that Brown can lift her name for the second week in succession to the point shown against Colgate and the final outcome of the play at Providence tomorrow is likely to hinge upon the so-called breaks of the contest.

The play of West Virginia against the Navy, Pittsburgh and Dartmouth, stamps the Morgantown team as one of unusual all around strength and the meeting with Rutgers is certain to develop an exceedingly hard fought gridiron battle. Both Dartmouth and Pittsburgh were able to defeat the southern by the margin of a few points but it required the hardest kind of attack and a defense that held firm at all times to accomplish this result. Rutgers must play better football than she has shown in at least two of this season's contests if West Virginia is to be added to the list of opponent-defeated.

In the other more important games of the day Cornell should win from Carnegie Tech and Dartmouth from Penn. State but only by using the full power of the elevens and holding the opposing teams in check throughout the play. This will be the first time that Penn State has ever met Dartmouth on the gridiron and the team from Pennsylvania is anxious to make a strong showing against the Hanover eleven and will require the closest kind of watching if they are to be defeated.

On the basis of their play against Pittsburgh, the University of Pennsylvania combination should win from Lafayette by a moderate score and the same can be said to be the logical outcome of the Colgate-Rochester game. The navy is expected to be forced to display her full strength to win from Western Reserve and Pittsburgh should triumph over Westminster without much difficulty.

The leading games of the day in the east together with the scores of last season's matches where the same elevens met, are as follows:

Lebanon, Pa., Albright vs. Susquehanna, 0 to 21.  
Meadville, Pa., Allegheny vs. Thiel, did not meet.  
Boston, Mass., Boston College vs. R. I. State, 39 to 0.  
Brunswick, Me., Bowdoin vs. University of Maine, 7 to 7.  
Providence, R. I., Brown vs. Syracuse, did not meet.  
Lewisburg, Pa., Bucknell vs. Carlisle Indians, did not meet.  
New York, N. Y., Columbia vs. Amherst, did not meet.  
Ithaca, N. Y., Cornell vs. Carnegie Tech, did not meet.  
Hanover, N. H., Dartmouth vs. Penn. State, did not meet.  
Lancaster, Pa., Frank and Marsh vs. Haverford, did not meet.  
Washington, D. C., Georgetown vs. Eastern, 68 to 7.  
Gettysburg, Pa., Gettysburg vs. St. Johns, did not meet.  
Troy, N. Y., Hobart vs. Rensselaer Poly, did not meet.  
Baltimore, Md., John Hopkins vs. Rensselaer Poly, did not meet.  
Annapolis, Md., Lehigh vs. St. Bonaventure, did not meet.  
St. Bethlehem, Pa., Lehigh vs. Muhlenberg, 2 to 6.  
Northfield, Vt., Norwich University vs. Middlebury, 7 to 20.  
Andover, Mass., Phillips Andover vs. Yale Freshmen, 0 to 27.  
Exeter, N. H., Phillips Exeter vs. Harvard Freshmen, 20 to 21.  
New Brunswick, N. J., Rutgers vs. West Virginia University, 0 to 2.  
Hoboken, N. J., Stevens vs. Springfield Y. M. C. A., did not meet.  
Washington, D. C., Maryland State vs. No. Car. A and M, did not meet.  
Annapolis, Md., Navy vs. Western Reserve, did not meet.  
West Point, N. Y., vs. Notre Dame, 30 to 10.  
Pittsburgh, Pa., U. of Pittsburgh vs. Westminster, 67 to 0.  
Rochester, N. Y., Rochester vs. Colgate, 6 to 35.  
Middletown, Conn., Wesleyan vs. Williams, 9 to 7.  
Morrilton, Pa., Villanova vs. Ursula, did not meet.  
Buckhannon, W. Va., West Va. Wesleyan vs. Bethany, 66 to 6.  
Washington, D. C., Gallaudet vs. St. Mary's, 0 to 3.  
Medford, Mass., New Hamp. vs. Tufts, did not meet.  
New Haven, Newport Naval Reserve vs. Maine artillery, did not meet.

### KITTERY

Kittery, Nov. 2.—The members of the Christian Endeavor Society enjoyed a pleasant Halloween party on Thursday evening following the business meeting at the vestry of the Second Christian church. The room was very prettily with Halloween decorations and various pastimes were enjoyed, all entering heartily into the spirit of the occasion. Refreshments of popcorn, apples and cookies were served. Miss May Brown and the social committee were in charge of the affair.

Miss Almedia McIntire gave a five hundred party on Thursday evening for the benefit of the Red Cross. About 35 were present. At the conclusion of the game favors were awarded and ice cream and fancy cookies served.

The members of the First Methodist church at North Kittery held a very enjoyable Halloween party at the vestry on Wednesday evening, about 60 being present, and all report the time one long to be remembered on account of the good time they had. Halloween decorations made the party very attractive and the playing of games appropriate only at this time was enjoyed. Messrs. Gray of Sanford, and Jones of eastern Maine were present and gave short talks on "Dairying" and "Orchards." A cake and candy booth and fishpond and post card booth were liberally patronized. Refreshments of sandwiches and coffee were served.

Mr. and Mrs. Raymond McCabe have rented the house at Oak Bank recently occupied by Mr. and Mrs. D. S. McIntire.

Master Horace Houston Jenner of Otis avenue has been ill the past few days.

Mrs. Albert Ham of York has been the recent guest of Mrs. Frank Baimons of Kittery Depot.

The Sunshine club met on Thursday afternoon with Miss Charlotte Clark. Plans are being made for an

entertainment to be held on Wednesday evening, Nov. 21.

Charles Hanscom and niece, Mrs. Ada Hickey of New London, Conn., have been called here by the death of the former's uncle, Sylvester Hanscom.

Rev. Alexander Graham of Boston is the guest of Mr. and Mrs. Charles T. Trafton of Lotts avenue.

Mr. and Mrs. Edwin Drow of Patten, Me., are visiting the latter's cousin, Mrs. Frank Trefethen of Leeke's Cove.

Mrs. Sarah Lotts went to South Elot on Thursday to pass a few weeks with friends.

Mrs. T. J. Pettigrew of North Kittery is passing two weeks with her daughter, Mrs. Willard Chick.

Mrs. Charles T. Trafton of Lotts avenue visited Dover on Thursday.

Mrs. Austin Basley of Wentworth street has returned from a few weeks' visit to relatives in Malden, Mass.

Walter Philbrick of Pine street is enjoying a few days' rest from his duties at the navy yard.

The Ladies' Aid of the Government street church met on Thursday afternoon with Mrs. Howard Langdon. The time was occupied in sewing for the Christmas party.

Refreshments of sandwiches, cake, fancy crackers, hot chocolate and marshmallows were served. The hostesses were Mrs. Langdon and Miss Arvilla M. Shaw.

Mrs. Emma McRea of Somerville, Mass., who has been passing several weeks with her daughter in Eliot, has been passing a few days with her sister, Mrs. Walter Philbrick.

Mrs. O. C. McIntire of Dover is passing a few days with friends in town.

Mrs. M. C. Brewster of Love Lane was a visitor in Dover on Thursday.

Drigo Encampment, I. O. O. F. meets tonight.

Mrs. J. C. Smith and family of Eliot were visitors at North Kittery on Wednesday evening.

Mr. and Mrs. Oakes Little of Eliot have taken rooms on Newmarket street.

Services at the First Methodist church will be held as usual next Sunday. At 10:45 a. m. the pastor, Rev. B. F. Wentworth, will preach on Rom. 8:10, "Have You Got Religion?" The Sunday school service will follow. At 7:45 the pastor will preach on Phil. 3:13-14, "You in Your Small Corner."

AT C. M. PRINCE & SON'S.

Fresh Eastern pork to roast, 35c lb. Pot roast, from clear heavy beef, 25c. Sirloin steak, 35c lb.

Sugar cured shoulders, 25c lb. Chuck roast, 22c lb.

Sugar cured bacon, 25c lb. Best creamery butter, not renovated, 50c lb.

Green Mountain potatoes for winter, 50c peck, \$1.85 per bushel.

Navy yard workmen leaving their orders in the morning will find them all ready when they come off the yard. Don't have to wait a minute.

NOTICE.

Persons found taking material of any description from my lot on Wentworth street will be prosecuted.

J. P. SUGRUE.

SPECIAL FOR SATURDAY

AT HOBBS & STERLING'S

Pork roast, 31c lb. Fares spring lamb, 25c lb.

Two cans peas, 25c. Cocoa, 9c can.

Unlabeled, 2 bottles for 25c. Tomato soup, 3 cans for 25c.

Old Dutch Cleanser, 7c. Tar soap, 6 for 25c.

Two-in-One shoe polish, regular 10c size, 7c.

New York pea beans, while they last, 30c quart.

KITTERY POINT

Kittery Point, Nov. 2.—The marriage of Miss Ellen Seaward Blake, daughter of Mr. and Mrs. Henry Blake of this place and Benjamin Eastman Seaward took place at 7:30 on Thursday evening at the parsonage of the First Christian church, Rev. W. T. Coffin performing the ceremony. The single ring service was used. The bride wore a dark brown traveling suit with brown velvet hat and white crepe de chine waist. She carried a bouquet of yellow chrysanthemums.

Miss Merle Williams acted as maid of honor. The best man was Arthur Seaward, brother of the groom. Mr. and Mrs. Seaward left on the 9:15 train for Portland and will go from there to Farmington, Me., to pass a week, and on their return will reside with the bride's parents until their new home is ready for occupancy. The bride and groom are popular young people. The bride was graduated from Tripp Academy, class of 1917. The groom is employed at the navy yard and made his home with his uncle, Hospital Steward George Seaward and Mrs. Seaward at the navy yard. Their many friends and acquaintances extend to them best wishes for their future happiness.

William Dean Howells of New York who is well known here, passed unhealed on his journey last week. He is 80 years old. Mr. Howells would not permit any big celebration, but spent the day quietly with his two little grandsons, whom he refers

to as his "two best friends in the world."

The annual harvest supper which was given by the Ladies' Aid society of the Baptist church was held in the vestry last evening from 8 to 10 o'clock. A large attendance was present. Baked dinner, New England style was served, also all kinds of baked beans, brown bread, pickles, pies and cakes and coffee were served.

Mrs. Thurston Patch left on Thursday for Boston to pass a week with friends.

The Ladies' Sewing Circle of the Congregational church recently purchased a Liberty Bond. The Sunday school also bought one.

Mrs. Sarah Amee has returned to Kittery after spending a few days at her home here.

Mr. and Mrs. Edward Dayless of Everett, Mass., are visiting the latter's parents, Mr. and Mrs. Wentworth Seaward of Tenny's Hill.

Mr. and Mrs. Fred Dorr and little daughter, Muriel left today to visit relatives in Brockton, Mass.

Mrs. Charles Hart left for her home in Cambridge, Mass., today after passing the summer and fall here.

Mrs. A. A. Fall spent Thursday in Boston to attend the Ladies' Auxiliary of the Order of R. R. Conductors.

Next Sunday will be held on Sunday school day at the Congregational church at 12:15. Everybody welcome.

## NOT A PARTICLE OF DANDRUFF OR A FALLING HAIR

Save your hair! Double its beauty in just a few moments.

"Danderine" makes your hair thick, glossy, wavy and beautiful.

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.

19 SKELETONS UNEARTHED

Nashua, Nov. 2.—The workmen engaged in the excavating for the new high school building on Spring street have already unearthed 19 skeletons in the plot which was formerly the playground of the Spring street school which was burned last spring.

For years when excavating had been done in the yard skeletons had been found, but the number in the present work is larger by far than ever before, due to the fact that a large section of the ground has been dug up.

All the skeletons are among those missed when the old cemetery which occupied the lot previous to the old school being located there in the early '70s. At that time it was thought that all of the graves had been opened and the bodies taken to the present Woodlawn cemetery, but the frequent finding of bodies there shows that many were left. The bodies found lately were probably of those where there were no headstones and where the grave at the time had been occupied so long that the mound had sunk to the level of the ground, leaving no trace of a grave above ground.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of interior sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

EXETER

Exeter, Nov. 2.—Zelig London is confined to his home on Cass street by illness.

Rev. Joseph N. Haskell of Plake university will give the preparatory lecture at the First church tonight, and preach there on Sunday morning.

Two false alarms were rung in as Halloween pranks Wednesday evening.

Ich! Ich! Ich! Scratch! Scratch! Scratch! The more you scratch, the worse the itch. Try Doan's Ointment for eczema, any skin itching, 50c a box.

GOOD! GRACIOUS! ANNABELLE!!!

## LOCAL RED CROSS TO INCREASE COMMITTEES

**Now a Chapter With Branches in Surrounding Towns. Sweaters for Coast Artillery Company**

A meeting of the Executive committee of the Portsmouth Chapter of Red Cross was held on Thursday afternoon, at the office of the Chamber of Commerce. The final arrangements were perfected for changing the organization from a Branch of the New Hampshire Chapter to a Chapter with branches in Newington, Greenland, Rye, North Hampton and New Castle. This will give the local organization a little freer hand and they will then be directly under the North Eastern Division at Boston and be able to enlarge their work.

A committee consisting of Chairman Dr. S. T. Ladd, Secretary Mrs. W. D. Walker, Mrs. L. H. Thayer, Messrs. Charles H. Walker and H. C. Taylor were appointed to bring in a working plan for the reorganization and also a list for increasing the size of the present executive committee.

The workroom committee thought the chairman, Mrs. A. H. Locke reported that there were 120 sweaters completed and about as many helmets and wristers and considerable number of socks. These had been held back pending a letter from Captain Bodwell of the Coast Artillery, and this was received Wednesday in which he stated that his company would like seventy-four sweaters. It was voted to send these at once.

The report from Camp Devens was that every New Hampshire man had been provided with a sweater. The committee will hold back enough sweaters to provide the last fifteen percent quota who will leave here this

month and the remainder will be sent to the Red Cross headquarters for distribution.

The committee also reported that the Portsmouth Lodge of Elks had offered the use of the entire second floor of their home for Red Cross work and that the P. A. C. had offered two rooms. Votes of thanks were extended to both and in all probability the offer of Elks will be accepted for the winter. The present workroom is cold and hard to heat during the winter.

The committee were authorized to continue the work and the necessary funds for materials was provided. This committee has made a wonderful record and they are turning out a great amount of work every week. The materials are, however, expensive, the yarn alone being \$2.20 a pound and additional funds would be appreciated.

The report of Treasurer J. W. Washburn included a donation of \$353 from the Allied Theatre company and \$34 from the talk by Ellsworth Thayer on his experience in France and votes of thanks were extended to both.

There is considerable civilian relief but the committee reported that they are keeping this at a minimum.

At a later date when the Chapter is perfected and the committee enlarged Dr. Kimball, head of the North-eastern Division, is to come here and give the committee a talk on the winter work.

The membership list is still open and it would seem that everybody in the city could be able to pay the small fee of \$1 a year for membership.

guns were silent, and while flags went up all along the line. It was a general surrender. Armed by the Turkish commander, who has been on the Euphrates all through the campaign from the Battle of Shaliba, in March 1916, and whose troops confronted us at Nasiriyah all last summer and autumn, came out and surrendered with his whole force.

## BOSTON FLYER RETURNS HOME BADLY INJURED

(By Associated Press)  
An Atlantic Port, Nov. 1.—An American aviator who has served in the British royal flying corps, J. W. Van Alstyne of Boston, returned here today on a British ship after having spent 11 months in a British hospital recovering from wounds received during an encounter with a German flying squadron. Van Alstyne was winged over the German lines, but managed to bring his machine to earth within his own lines. His knee was shattered one eye was blinded, one arm broken by machine gun bullets, and his body slashed by shrapnel from anti-aircraft guns. Two other flyers with him at the time were killed. Van Alstyne said he was going to California to recuperate.

## CARPENTER SUIT SETTLED

Mrs. Marguerite Paul Carpenter has discontinued her \$250,000 suit, filed in Suffolk county, against her father-in-law, George A. Carpenter of Boston and Wollfboro, N. H., for the alleged alienation of the affections of her husband, Ralph G. Carpenter.

The couple married on April 30, 1906. She was the daughter of William A. Paul of 802 Beacon street. Her husband was a Harvard man, and his father is a wealthy Boston real estate holder. The couple lived at the Copley Plaza till estranged in May of 1916, and in that summer the husband remained with his father at the Wollfboro estate and Mrs. Carpenter at "The Gables," a cottage at Magnolia. Proceedings for divorce and for the custody of the child, Ralph G. Jr., born in 1907, followed.

In the suit she has now abandoned, Mrs. Carpenter alleged her father-in-law continued to alienate the affections of her husband and to persuade him to leave her in May, 1916, and to remain absent from her house.

## IF KIDNEYS ACT BAD TAKE SALTS

SAYS BACKACHE IS SIGN YOU HAVE BEEN EATING TOO MUCH MEAT.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and laggard. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, also you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy full of sediment, channels often get sore, water solids and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the seed of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular new eaters. It is inexpensive, cannot injure and makes a delightful effervescent lithia water drink.

## STOCK MARKET NEW RULING

(By Associated Press)  
New York, Nov. 1.—Measures to prevent the vicious short selling in the stock market, said to be instigated by the German interest with an idea of creating pessimism in this country, were taken today by the Board of Governors of the Exchange.

Today as the result of a so-called bear movement, stocks dropped from three to ten points. Following the closing of the market the Board met and later issued a statement in which it said that all members of the exchange must at noon every day open their books for the inspection of the Board and to show any stock borrowings.

As stock borrowing is the basis of all of the trouble, the committee figure that with this knowledge in their hands they will be able to govern the matter.

## FEEL FINE! TAKE 'CASCARETS' FOR LIVER, BOWELS

Spend 10 cents! Don't stay bilious, sick, headachy, constipated.

Can't harm you! Best cathartic for men, women and children.

Enjoy life! Your system is filled with an accumulation of bile and bowel poison which keeps you bilious, headachy, dizzy, tongue coated, breath bad and stomach sour—Why don't you get a 10-cent box of Cascarets at the drug store and feel better. Take Cascarets tonight and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. You'll wake up with a clear head, clean tongue, lively step, rosy skin and looking and feeling fit. Mothers can give a whole Cascaret to a sick, cross, bilious, feverish child any time—they are harmless—never gripe or sicken.

## STOCK MARKET SHAKEN

New York, Nov. 1.—Prices crumbled again in the stock market today, shares of recognized value as well as speculative issues falling to lowest levels of the year. In several noteworthy instances, prices of the forenoon represented minimum quotations of 5 to 20 years.

The same influences which recently provoked feverish liquidation were again operative. The Italian situation and the enormous tax exaction of the federal government as shown by the heavy appropriations made by railroads and industrial corporations were principal factors.

Selling was on a larger scale than at any recent session. Commission houses contributed to the decline by further closing of accounts for out-of-town customers. United States Steel was the overshadowing feature, declining 4 3/4 points to 96 in the first two hours. This is 3 points under its low price of the year and almost 40 below its maximum of a few months ago.

Other industrials, including the prominent war issues, were 2 to 5 points under yesterday's final quotations. Rails also were offered in such volume as to suggest further enforced liquidation, investment shares yielding 2 to 4 points.

Nominal milles accompanied the diminished dealings of the noon hour.

## JAPAN WON'T SEND TROOPS

A Pacific Port, Nov. 1.—Baron Tane-tani Megata, head of the Japanese financial commission that has arrived here, said today it was impossible for Japan to send an army to aid the allies on the European battle front.

"If, in the face of physical impossibility, Japan should be foolhardy enough to make a superhuman effort to send troops, and if she speedily became exhausted," he asked, "who would then protect the Orient if Germany remained undefeated?"

"Though we have sent no troops to Europe," he said, "we have helped in other ways. Our navy is serving the allied cause in the Mediterranean and the Indian ocean and our merchant marine is largely at the disposal of the allies. Japanese ships do practically all of the carrying between Asia and Europe."

Baron Megata said the great distance and the condition of the trans-Siberia railroad stood in the way of sending troops to Russia, for, once sent there, they could not be supplied.

## SERVE BY SAVING

Editor's Note—The articles appearing in this paper under the above caption are supplied by the U. S. Food Administration as a practical help to the American woman in doing "her bit."

FOOD FOR THOUGHT.  
This matter of saving wheat offers much food for thought, doesn't it? Incidentally, it offers much tempting food for our palates!

Fortunately, saving our wheat does not mean going without bread. It only means that we will be given the chance to get better acquainted with all the wheat substitutes that are grown right here in our own country, but which we have hitherto been inclined to slight because of the greater popularity of wheat.

Take oatmeal, for instance. Most of us have liked this cereal from the very first spoonful that found its way to our mouths—which was probably in the nursery. Then why don't you make oatmeal more than an occasional visitor to your table? It may be served in many forms, in breads, cookies and puddings.

Try the following recipe for oatmeal.

muffins and serve it at luncheon tomorrow together with cream cheese and jam instead of making those wheat biscuits you had planned.

OATMEAL MUFFINS.  
One and one-half cups milk, 2 eggs, 2 tablespoons sugar, 2 tablespoons fat, 1 teaspoon salt, 2 cups rolled oats, 1 cup flour, 4 teaspoons baking powder. Pour milk over oats and let soak one-half hour. Add eggs and melted fat. Add the dry ingredients, which have been sifted together. Bake 25 to 30 minutes. This makes 10 to 12 muffins.

Because the farmers have produced an unusually large supply of buckwheat this year, patriotic housekeepers are collecting recipes that use this cereal instead of wheat.

Here is a new rule for buckwheat muffins to start your collection.

BUCKWHEAT MUFFINS.  
Two cups buckwheat, 1 teaspoon baking powder, 1-2 teaspoon salt, 1 egg, 1-1/4 cup milk, 1 tablespoon butter, 3 tablespoons sugar. Mix and sift dry ingredients. Beat the egg and add to the milk. Combine the mixtures and add the melted butter. Bake in greased muffin pans for 30 to 40 minutes in a moderate oven. This makes 12 muffins.

## DRIVE AGAINST ITALY MAY CHANGE PLANS

(By Associated Press)  
Washington, Nov. 1.—The great battle of the northern Italian plains is swinging into the first stages of its crisis today. With Von Mackensen's hosts now within range of the Tagliamento river at some points, Gen. Cadorna must soon indicate his plan of defence along that line.

Cadorna apparently is attempting to keep the German command in doubt about his forthcoming stand. Only the barest information is being given out through official channels here today. Cables indicate the Italians are making a desperate effort to outflank the German brigades, taking advantage of every occasion to halt and confuse the advancing Teutons.

It is now believed the high point in the fighting will not be reached before Nov. 7 or 8. It is expected that the struggle will still be in desperate progress Nov. 16 when the first great allied conference with America participating is held in Paris.

As a result of Germany's stroke against Italy an entirely new war program must be mapped out at this conference. For some days there has been a growing belief among military representatives of allied powers that too much importance must not be laid on the west front.

Complete plans for re-enforcing Italy will be made at the conference, it is said. No matter how successfully Cadorna checks Von Mackensen now, the Germans must be driven out of Italy entirely, military attaches here declared. Otherwise they would establish a base for new and dangerous assaults on Italy, Russia and possibly France next spring.

## Girls! Use Lemons! Make a Bleaching, Beautifying Cream

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of skin beautifier at about the cost one must pay for a small jar of the ordinary cold cream. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sunkenness and tan and is the ideal skin softener, smoothen and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It naturally should help to soften, freshen, bleach and bring out the roses and beauty of any skin. It is simply marvelous to smoothen rough, red hands.

## CANNING LESSON NO. 82 Grapes

Grape Jelly is the king of jellies. Says today's bulletin in the National Emergency Food Garden Commission, with which this newspaper is co-operating in a nation-wide food conservation movement.

An acid grape is best for jelly. The sweet, ripe grapes contain too much sugar. Half ripe grapes of equal portions of nearly ripe and green grapes, will also be found satisfactory. Wild grapes make delicious jelly.

Pick grapes from stems, put into preserving kettle, crush with wooden masher or wooden spoon, heat slowly, stirring frequently while simmering. Cook until broken into pieces. Strain through a jelly bag. To each cup of juice add a cup of sugar and boil until it thickens on the edge of a spoon dipped into it and cooled. Pour into hot jelly glasses and when cold cover with hot paraffin.

Grape Jelly in Layers—Make some Niagara and Delaware jelly, also a

**Genuine Hospitality**  
When it's cold outside, your guest finds nothing more welcome than a hot cup of tea—and the glowing warmth of a Perfection Oil Heater.

The Perfection soon warms cold finger tips and toes—awakens a feeling of comfort—makes your hospitality complete.

When coal is scarce, the Perfection is your security against cold rooms. Economical—convenient—handsome. Gives eight hours glowing warmth on a gallon of kerosene.

3,000,000 in use.

Re-wicking is now easy with the new No. 500 Perfection Heater Wick. Comes trimmed and burned off, all ready for use.

So-CO-ny Kerosene gives best results.

STANDARD OIL CO. OF NEW YORK

small quantity of Concord jelly. In the bottom of individual glasses place a layer of Delaware jelly and let it harden, then cover with a layer of Concord jelly. When this has congealed finish with the deep-toned Concord jelly. Cool and seal as usual.

When serving as a dessert top with a spoonful of whipped cream and decorate with a cherry.

Grape Jam—Stem, weight and wash grapes. Measure out one pound of sugar for each pound of grapes. Put the grapes in preserving kettle with enough water to keep from sticking on bottom. Cook gently one half to three-quarters of an hour, press right through colander fine enough to keep seeds from passing through. Add sugar, return to kettle, stir well and cook slowly until it drops from the spoon in a jelly like consistency. Skin as needed and when as thick as desired turn into glasses.

Tippe Grape Marmalade—Stem grapes and to each half pint allow cup of sugar. Pulp the grapes and keep the skins. Extract seeds by boiling the pulp until tender, rubbing through fine colander. Put pulp juice and the skins over fire in preserving kettle and add sugar. Boil until very thick, pour into jars and seal.

## BLINDFOLD, MARINES USE MACHINE GUNS

Washington, Nov. 1.—The United States marines in training at Quantico, Va., forty miles below Washington, have become so expert in the handling of the Lewis machine gun that they handle them blindfold.

Secretary of the Navy Daniels and

Major Gen. Barnett, Commandant of the Marine Corps, today inspected the men at Quantico.

"They certainly are a fine looking, well trained aggregation of fighting men," said Mr. Daniels. "They are prepared to give an excellent account of themselves wherever they may be placed."

"At the time of the Villa raid some of our machine guns got jammed, temporarily destroying their efficiency. The action occurred at night and the troops could not fix the guns in the dark."

"With a view to guarding against such a contingency where our men may have to use machine guns at night, we are training them to meet such an emergency. I saw one blindfold man take a jammed gun and fix it in two minutes today. They can fix them or fix them at night as well as by daylight. The same rule, I understand, is being followed in the army."

DUTCH CRUISER REACHES NEW YORK FROM COLON.

New York, Nov. 1.—The Dutch cruiser "Trump" arrived at this port today from Colon. She is anchored in the North River near the Dutch merchant vessels tied up here.

STARTS ON LONG FLIGHT.

Newport News, Va., Nov. 1.—Lieutenant Adam, the Italian flyer, started from Langley field for Mineola, N. Y., at 10:20 a. m. today in a big Italian seaplane. He was accompanied by a mechanic.

## OLD FASHIONED TACTICS

(By Associated Press)

London, Nov. 2.—General Maude's victory at Ramadiah in Mesopotamia was the result of a battle of the old picturesque style, before the "war of inaction" swept the spectacular element out of modern warfare.

The movement, which determined the whole action was the sudden swinging around of the British right until it became the left, and the encircling movement of the cavalry, which robbed the Turkish garrison of its last free line of retreat. The idea was admirably executed but even the staff strategists of the British army scarcely anticipated the surrender of the whole Turkish force without a blow by the waiting cavalry.

The British eye-witness writing from Ramadiah today, says in his account of the battle:

"We captured Ramadiah today, and with it the whole Turkish garrison, including its Commander, Ahmed Bey, and a number of field guns, pom-poms and rifles."

"Our force moved in two columns on the night of September 27 from an advanced camp on the Euphrates, west of Fatha, one column on the right and the other on the left, and at dawn they attacked Musaid ridge, a low line of dunes running north and south from the Euphrates to the Habbaniyah Canal.

"To clear the ridge and cross the canal was our first objective. The first knolls were quickly occupied. At dawn we bombarded the main crest of the ridge, but the Turks had evacuated it."

## Increased Postal Rates.

It is safe to say that people who have been agitating in favor of penny postage, as many have done in recent years, never expected to see postage rates advanced. But circumstances alter cases and instead of a reduction in rates there has come a substantial advance. The new rates are now in effect and until further notice letter postage will be three cents, while the cost of sending cards and drop-letters will be two cents.

This increase in postal rates has been made purely as a war measure. The government needs revenue in amounts never before dreamed of and the money must be drawn from every possible source. In one way or another every citizen must bear a share of the tremendous expenses of the war. There is no escape, and there should be none. The war is the people's war and the people must foot the bills.

The increase in postal rates will mean a vast revenue for the government and it constitutes a tax which, in the main, will be easily paid. At first it may seem a trifle onerous, but thoughtful people will not complain, for two reasons. They know the government needs the money and that the increased rates will be maintained only until the pressing need is past, and they also know that postage, even at the present rates, is about the cheapest thing in the world. In no other direction can one procure such an amount of service and such valuable service for the same money.

There are comparatively few who realize that when letter postage was dropped to three cents it was a mighty reduction from rates which had previously prevailed. How many are aware that as late as 1845 it cost five cents to send a letter ten miles, and ten cents for longer distances? And bear in mind that money was not nearly as plentiful then as it is today. Five cents then meant as much as a quarter does now.

This increase in postal rates does not mean a hardship to the people, but it means a great deal to the government in meeting the costs of the war. If it be regarded as a burden, which it ought not to be, it is one that will be removed at the earliest possible date. In the meantime it is for the people to stand up bravely to the task which confronts the nation, as they have done and are doing, and as they will continue to do until the world is freed from the greatest danger it ever faced. It is a time of sacrifice for those at the front and those at home, and to the credit of all, the sacrifice is being cheerfully made.

For this reason there will be no whimpering over the temporary rise in the cost of postage, which constitutes necessary taxation in its easiest possible form.

Among the forty inmates of Sing Sing prison who were released the other day on parole are two murderers, a swindler whose operations with one firm amounted to \$60,000, and a man convicted of police graft in New York. The only published reason for the liberation of these men is that "their minimum sentences would have expired within four years." Is it possible that the American public is really satisfied with this sort of thing?

John P. White resigns as president of the United Mine Workers of America to assist Dr. Garfield in handling the fuel question. His knowledge of the mining business will be a valuable asset in this responsible position and he should be able to perform highly acceptable service.

Camp Devens at Ayer, Mass., is not to be abandoned, even though a New England winter is approaching. Secretary Baker visited it last week and was very favorably impressed by the conditions, and the training of soldiers there will not be discontinued, for the present at least.

Grocers in numerous parts of the country are as yet unable to reconcile Mr. Hoover's wholesale and retail prices. But possibly things may work out better after a while. It is a big job that has been undertaken, and the men conducting it have no precedents to go by.

It is now claimed that the great quantity of sugar unearthed in Buffalo is government property. But if this is so why were secret service agents smelling around after it, and why was it labeled "flour"? The country awaits an explanation, and has a right to it.

In many ways women are helping in the war work, and perhaps no more effectively in any case than down in Rhode Island, where they are helping to harvest the corn.

The New England colleges are certainly doing their share in the war. They now have eight thousand men in the service.

## EDITORIAL COMMENT

### A Pair of Royal Traitors

(From the Providence Journal)  
Those observers of Greek events who were inclined to doubt the harsher judgment visited upon the conduct of ex-king Constantine should note the statement from Athens that documents have been discovered fully revealing the perfidy of the deposed sovereign.

Constantine now stands forth in traitorous correspondence with the German Emperor, professing a benevolent neutrality toward the Allies, he nevertheless maintained secret negotiations with the Kaiser, urging him to send troops to the Balkan front and promising to attack the Entente army in the rear.

Thus the former Greek king is shown to be one of the most contemptible figures brought into public view by the great war. His virtuous protestations are of no avail. His assumption of injured innocence will not deceive the world. He has been playing a dual game, trying to run with the hare and hunt with the hounds. To the Allies he has posed as a patriotic ruler bent on saving his little kingdom from annihilation, while at the same time he has continued an intimate relationship with his imperial brother-in-law and has begged him to give the Greek royalists a chance to stab the Entente in the back.

Queen Sophia is shown in the captured documents to have referred to the Allies as "infamous pigs." This is not surprising. The ex-Queen has been notoriously sympathetic with the Teutonic cause. Her influence on her husband has been very strong. It has been said that she had more effect than anyone else upon his political decisions. To sway his actions, however, was one thing; she could not persuade Venizelos and the Greek majority for her way of thinking. To lead Greece formally associated at last with the other side must have been gall and wormwood to her. But she cannot complain of the way the game has gone. She did her utmost to pervert Greek sentiment and persuade the kingdom to align itself with Germany—and she lost.

Stripped of their royal dignities, Constantine and Sophia are exiles. One of their sons sits upon the throne, but he is only nominally the ruler of the country. Greece is essentially a republic and Venizelos is its chief executive. The publication of these documents at Athens will not strengthen the hold of young King Alexander upon the royal office.

**Miss Addams's Example**  
(From the Chicago Evening Post)  
Were it not for her we would call Miss Jane Addams "a good sport." Miss Addams's views on war are well known, and we entirely disagree with them. But instead of sitting down with them in silent resentment in Hull House, Miss Addams is going about the country speaking to women in favor of Hoover's plan of food conservation. Again she is an example to the rest of us.

**The Drive Against Waste**  
(From the Atlanta Constitution)  
Within the next few days every housewife will be asked to sign a card pledging herself to cheat the garbage can. This comes incidental to the organized and nation-wide campaign with food conservation as its objective.

It is to be a campaign not for money nor for fighting men; but a campaign solely and purely to drive home to the American housewife a realization of her importance in this war and of the necessity of her doing her full duty toward conservation of the world's food supply. She will be asked to deprive her household in no manner nor degree. The Government wants her to keep her table well set and fully supplied; but it does want her to prepare no more food than will be eaten—in other words, to eliminate waste.

She will be asked, furthermore, to substitute certain plentiful articles of diet for other food commodities that are scarce; and she will also be asked to profit by the advice and culinary suggestions that will be furnished her gratis by the Government.

Every housewife in America has been presented to her a splendid opportunity for service toward the great and noble undertaking to make the world safe for democracy; and it is not to be thought that one of them will withhold her pledge to cooperate with her Government to that end.

**Drug-Taking Evil in New York**  
(From the New York World)  
Neither state nor federal legislation nor vigilant police work having sufficed to eradicate the evil of drug-taking in New York, Police Commissioner Woods appeals for stricter Federal legislation. The 2000 arrests of drug-users annually in the city show that it is doing its part in the work of suppression; the next step should be to close the loopholes by which drugs gain entrance to the city from neighboring states.

**Some Hymns in a Hymnal**  
(From the "Current Topics of the Town" in the Philadelphia Public Ledger)  
The "Star Spangled Banner" Kipling's "Recessional" and Julia Ward Howe's "Battle Hymn of the Republic" are combined in the patriotic supplement which appears in the new edition of the Presbyterian Hymnal. This is a work of purely Philadelphia origin, as far as editing and publishing are concerned, and it is entitled to be classed among best sellers, since it has reached a circulation of 220,000.

Since it has reached a circulation of 220,000.

The Rev. Louis F. Benson, D. D., is the editor, and Dr. Alfred Reginald Allen, now a major in the United States Army, is the musical editor. Whenever the "Star Spangled Banner" is sung, there is a division of procedure on the part of the singers when it comes to the words "rockets red glare" and "bursting in air."

For instance, at the Information Musical Festival last week there was a sharp cleavage in the audience between those who went right straight up with the notes and those who repeated the first note.

I observe that in the Hymnal the latter arrangement is adopted. Which ever is the right way it would seem to be time to stabilize the proper version. The song is more than a hundred years old.

**Government of Sections, by Sections, For Sections.**  
(From the Liberatorian)

Secretary of War Baker was in Boston last week and looked over Commonwealth Pier, which the state has offered the War Department as a shipping point for troops and army supplies. Mr. Baker's only comment was that it was certainly a fine piece of architecture. About the only use the present Administration has for Boston is as a Liberty Loan base. The South will get all the good things and Boston will be expected to send its money and men to fill up the southern gaps.

**Don't Forget the Extra Cent**  
(From Topics of the Times in New York Times)  
A good many people will remember that on and after Friday next letter postage in this country, for all except what are called "drop" letters, is to be three cents an ounce or fraction thereof instead of two cents. The probability, however, that great numbers will forget this change is so great that there can confidently be expected a whole lot of trouble in mail delivery for at least a month to come, for though notification of the change has been given so often and in so many ways that everybody should have heard and heeded it, a habit as old and as firmly fixed as is the one of putting a two-cent stamp on all ordinary letters cannot be easily or quickly broken.

There is excuse, too, for fearfulness, very sorrowfully, of course—that there will be some intentional forgetfulness of the new rate, in the hope of transferring to other persons the payment of the extra penny. Perhaps it was to tell that infamous purpose that the rulers of our postal affairs decided that underpaid letters, when possible, should be returned to the sender and not transmitted, with a "postage due" stamp affixed, to the person addressed. No other explanation of that decision can be imagined at least by the present commentator. If that be the justification in the official mind, an inadequate one.

The receipt of mail not fully prepaid is felt, indeed, to be an annoyance and a discourtesy to everybody who gets it, but both can be borne with more patience than the failure of more or less important communications to reach their destination promptly. There are some people, fortunately few in number, who will not let the postman deliver to them any mail matter on which the postage has not been fully prepaid. They are within their rights in thus refusing to be exploited by glibful correspondents, or taxed for the profit of those who are merely careless or ignorant, but the exercise of this right, like that of some others, often carries with it pen after so heavy that it is the part of wisdom as well as of generosity to pay the full rate unless one is quite sure that the imposition of it is intentional and persistent.

As for the three-cent rate, it is after all, no new thing. One need not be very much of an old-timer to recall the later of the many years it was in force before. We all endured it well enough then, and no doubt shall do so again. If only it were the worst of our troubles!

**More Waste**  
(From the Buffalo Express)  
A fuel expert says that it is improbable that more than five per cent of the coal used is ever turned into really useful work. The rest is wasted in heat radiation and otherwise. That is a problem which is constantly occupying scientists. If we could get ten per cent out of coal the world would be enormously richer.

**Luther and Machiavelli**  
(From the New York World)  
Tomorrow the religious world honors Luther, celebrating the 400th anniversary of the day on which the reformer nailed on the door of the Wittenberg church his ninety-five theses against ecclesiastical abuses. It is a celebration of peculiar interest to the German people, but can a German at war for autonomy and against personal liberty and freedom of conscience consistently pay tribute to the bold monk who fought for the very principles their state repudiates? What has the Germany of militarism and Kaiserism to do with Luther? Its great religious leader is as much a discarded prophet of an earlier and nobler era as are Bach and Beethoven and Schiller.

The people of Germany may continue to profess the Lutheran and Catholic religions, but the creed of the German Empire is the creed of Niccolò Machiavelli. The Florentine statesman is its oracle, and after his unscrupulous formula it has developed the theory of a lawless centralized Government responsible only to itself. Its Kaiser is Machiavelli's prince incarnate, and in the subordination of pub-

## TAX INCREASES POSTAGE RATES

### New System Went Into Effect at All Postoffices Last Night.

Don't forget to put three cents on your letters going out of town, and two cents on all your post cards, beginning today. At midnight, last night, the new revenue tax went into effect.

All letters for the Portsmouth postal district, will continue to bear the old rate of two cents. In regard to post cards, many are confused regarding the tax. Here is the latest instruction issued by the Postoffice department on the subject.

"Post cards or private mailing cards, which include all cards not exceeding in size 3 9-16 by 5 9-16 inches or less than approximately 2 3-4 by 4 inches, will also be subject to two cents postage each, whether they bear written or printed matter. All cards bearing the words 'post card' or 'private mailing card' which are not within the size above set forth shall be charged two cents postage each if in print, or the letter rate if wholly or partly in writing, but the rate of postage on printed advertising cards or cards containing printed circular matter which do not bear the words 'post card' or 'private mailing card' and do not come within the size prescribed for post cards is not affected, such printed cards being subject to postage at the third class rate."

He morals to political expediency, the conception of the people as "wax in the hands of the ruler" and the establishment of a great army to enforce the will of the tyrant, it has faithfully followed his precepts. The Government of Florence learned some thing of perfidy and duplicity from its astute precursor, but it has remained for the German Imperial Government to develop his principles of dissimulation and deceit into a state policy. Let the German people honor Luther as they will, the apostle of the Kaiser and his Junkets is Machiavelli and it is his birthday they should celebrate; the 450th anniversary on May 3, 1913, will be an appropriate occasion, if the war lasts. His volume sure the corner-stone of their political faith, and certainly it would have amazed their pagan writer to know how vast an edifice of lawless government they were destined to annihilate in a time of the highest development of Christian civilization.

## SEC. LANSING SAYS STATEMENT UNWARRANTED

(By Associated Press)  
Washington, D. C., Nov. 2.—Secretary of State Lansing today authorized the statement that the basis for the newspaper attacks on Russian withdrawal from the war was unwarranted.

In the statement, Secretary Lansing criticized the Washington Post that printed the story conspicuously under a headline reading: "Russia Quits."

## PAINT STOLEN FROM BOSTON NAVY YARD

(By Associated Press)  
Boston, Mass., Nov. 2.—William R. Snow, a builder in Cliftondale, has been arrested by federal agents, and is charged with having in his possession a large quantity of paint that was stolen from the Boston navy yard. The paint was valued at \$2000 and was bought by Snow for \$300.

When arraigned before U. S. Commissioner Hayes, Snow pleaded not guilty and was held for a hearing at a later date.

## CURLEY OUSTS J. H. SULLIVAN

(By Associated Press)  
Boston, Mass., Nov. 2.—Mayor James C. Curley has ousted Co-operation Counsel James H. Sullivan. The mayor asserts that his grounds for the action were the result of an attempt made by Sullivan to "frame him."

## NAVY YARD NOTES

**Jackies Play Saturday**  
The football team of the U. S. S. Montana play in this city on Saturday afternoon and will have the Tiger A. C. as opponents on the gridiron.

**Secretary Thanks Women.**  
The secretary of the navy has sent his official thanks to Mrs. Ralph Gallinger and the women of this state who donated 12 large boxes of knitted articles to the men of the battleship New Hampshire, commanded by Capt. Lloyd Chandler of Concord. The boxes con-

## GAVE DR. MAY SILVER PITCHER

### Federal Fire Society Shows Esteem for Oldest Member.

One of the pleasing features of the meeting of the Portsmouth Federal Fire Society at the Rockingham on Thursday evening was the presentation of a beautiful silver pitcher to Dr. James R. May, accompanied by a set of resolutions from the members regarding his long membership and the affection and esteem in which he is held by the organization. It was the 50th anniversary of his becoming a member and mainly through his work the society has continued and kept together. The organization has an unbroken record since 1789.

## ENJOYED THEIR EXPERIENCE IN THE TRENCHES

(By Associated Press)  
With the American Army in France, Nov. 2.—The first American troops that were the first to be sent into the trenches against the Germans have returned to the billets and bring many interesting stories of their experiences.

They bring the stories of the activities of the German snipers and tell of the new game that was originated namely, sniping the sniper. They say that many of them will snip no more unless they have snipers down with Dante.

## GREENLAND

Greenland, Nov. 2.—A position as general manager of a paper mill at Jafflowell, Me., has been accepted by Eugene S. Daniel of this town. He has left to assume his new duties. His family will reside at the farm at least for the winter.

A whist party for the benefit of the Comforts Committee, Boston, will be given by Mrs. John L. Seavey on Saturday afternoon of this week at her residence. A very cordial invitation is extended to all who can be present and thus aid in securing money to buy yarn for knitting articles of necessity for our soldiers. Besides the entrance fee contributions of canned goods, jelly, or any salable articles will be very acceptable for the sale, which will be a feature of the occasion. Rev. Mr. Lamberton will assist in the arrangement of entertainment to be given by the children.

Dr. William R. Weeks of Manchester, has been a recent guest of his mother, Mrs. Rufus W. Weeks.

The Greenland branch of the Red Cross has received from Mrs. Daniel Mahoney \$2.50, the proceeds (with additional contributions from neighbors and friends) of a whist party given at her home last Thursday evening. The table in a home would bring one dollar into the treasury. If ten or fifteen other families would follow this good example by having one or more tables, a good sum would easily be raised to buy yarn to knit helmets and sweaters for our soldiers' comfort. We are very sure that the urgency of this appeal will not be unheeded.

The theme for next Sunday evening at the Methodist church by the pastor, Rev. F. W. Lamberton, will be "Made in America."

# ITALIANS HALTED AT THE TAGLIAMENTO

## General Cadorna's Forces Now Prepared to Give Battle in Open Country. Germany Makes Big Claims

(By Associated Press)

The greater proportion of General Cadorna's Italian army have crossed the Tagliamento river and stand on the western side prepared to give battle to the on-coming Austro-German forces.

The advance of the enemy, while it has been incredibly swift, has not been quick enough to envelop the Italians from the Cambric to the Adriatic.

The Italians have lost heavily in men and guns, the Berlin communication claiming that they have taken 188,000 men and 1500 guns, and they suffered heavily from the lack of food in their retreat.

General Cadorna says that with the morale of his forces still good they will give a creditable account of themselves.

On the eastern side of the Tagliamento River the Teutonic armies have captured several bridge heads, from

which points they can start an offense. Should General Cadorna decide to give battle at Piazze, the plain of Prullwilt will resound with the beat of the hoofs of the Italian cavalry. Already the Italian cavalry have been in operation against the Austrians and it will witness the greatest battle of the war.

On the Flanders front there has been very little of importance other than small raids, and shell fire.

From Petrograd comes the report that the Germans are retreating from their old position at Riga and that the Russians are in contact with their rear guards. It is evident that the Russians are in sufficient force to follow close on the Germans.

**PRESIDENT SEES WORK OF CAMOUFLAGE GROUP**

Washington, Nov. 1.—Camouflage skill of the army engineer corps was

viewed today by President Wilson and Secretary Baker at a training camp near Washington. A camouflage company put on a special exhibition, showing how artillery, roads, streams and even troop movements are concealed. Many secrets of the game developed by the Americans were demonstrated to the guests, who included several high officers of the army.

## U. S. REGIMENT UNDER FIRE

American Field Headquarters, in France, by mail.—Somewhere in an active sector, the American railroad engineers are running trains right up to front. They are the first American regiment to come under shell fire in the great war.

An entire railroad system, from the general manager's office to the beat of the lonely track walker, has been handed over by the French war office. Trains manned by American boys are moving on a strict schedule, carrying shells for the guns, food for the French troops and the daily movement of politics going forward or coming back on leave to rest.

Temporarily the regiment is loaned to the French for the operation of that railroad. The men may stay on the job there for the duration of the war or they may be shifted to some other line. They get French rations and their road is a part of the French system. But they wear their own uniform, draw American pay, and run the road by their own method, which means economy of man-power.

At some points their line is within the range of the Boche guns and shells crump at random along the right-of-way. At night there is a danger of Boche airplanes slipping through the tight French aerial patrol and bombing the engineers at work. This has happened but so far our troops have had no casualties.

I was with engineers last night when they marched to the troop train to move forward. The move was made without any unnecessary sound to guide Boche air-raiders. Along pitch-dark streets they swung through the town to the music of their own hobnails beating on flint pavements. The bandsman were there with their horns smothered in green kimonos to prevent the moonlight from the glinting on the brass.

The American commander kept the time of departure secret so that half the town would not stay awake till 1 a. m. to see his boys off.

Breaking into single file the soldiers stepped out of the darkness into the American Red Cross buffet at the rail road station, stowed away their rifles and steel helmets and lined up for freechow.

Fifteen American women worked like biscuit-pushers in a beanyery and when they began to lose ground against the crush of hungry men the colonel himself jumped behind the counter and poured coffee out of a big pail.

There wasn't much time. The troop train slid into the station, the men piled in, 40 to a car, and the officers clambered into their coach.

Up forward the whistle tooted cautiously; a lantern flashed and the train moved.

## EASY TO DARKEN YOUR GRAY HAIR

YOU CAN BRING BACK COLOR AND LUSTRE WITH SAGE TEA AND SULPHUR.

When you darken your hair with Sage Tea and Sulphur, no one can tell because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.

## GERMAN WAR SHIP SUNK

(By Associated Press)

Copenhagen, Nov. 1.—A large German war ship was sunk in the Sound according to a report from Malmo, Norway. The ship is said to have struck a mine and sunk.

## BRITISH ACTIVE IN PALESTINE

(By Associated Press)

Palestine, Nov. 1.—The British have taken the town of Beersheba and captured a large amount of supplies, and 1800 Germans and Arabs.

## AROUSED BY FIRES U. S. ON NEW TRAIL OF PLOTTERS HERE

Co-operation of Public Sought in Putting an End to Work of Destruction Done in Aid of Kaiser's Government.

Washington, Nov. 1.—The destruction of livestock, grain and munitions by incendiary fires at various places in the United States has brought sharply to the attention of the Government the necessity for drastic steps in dealing with this menace.

While nothing official has been given out on the suppression of the work of German spies and plotters in this country, it is known that the Secret Service is on the trail of men suspected of being implicated in these outrages.

The feeling in Washington is that as the war progresses the citizens in various localities will be constrained to take on themselves the task of apprehending conspirators against the Government. Intelligent co-operation on the part of the average citizen is desired, and watchfulness and vigilance on the part of loyal persons will aid in a great measure in overcoming the efforts of German plotters to start a reign of terror in America and to handicap the fighting force which Uncle Sam is sending abroad by destroying food supplies and munitions.

The fires which destroyed vast stores of munitions at the Baltimore and Ohio piers in Baltimore, destined for the American fighting forces in France, has aroused keen indignation.

The authorities also are still investigating the recent fire which destroyed twenty-five acres of the Kansas City Stock Yards and \$1,000,000 worth of livestock, and the fire in Brooklyn where large stores of wheat were destroyed. In addition a warning has been sent from Washington to the owners of the great grain elevators in the West to take immediate and extreme steps to protect this property from incendiaries.

A number of persons are already under arrest in connection with the Kansas City stock yards fire. Several of the persons were apprehended in Kansas and Oklahoma, and one man is reported to have confessed his part in the conspiracy. The Brooklyn fire caused the Government to put into effect drastic regulations barring Germans from the waterfront.

Destruction of everything that will be of use to the American Government or its allies is the decree that has gone forth from Berlin to the conspirators in America, and in the brief time which has elapsed since America entered the war the German agents have succeeded in a large number of instances in their missions of destruction. A number of cases, great and small, are of record covering nearly all the States of the Union.

From several States the Washington authorities have received word that the food conservation pledge campaign is being hampered by insidious and false reports seeking to create the impression on unthinking housewives that pledge cards "bind you to a program of starvation." Several instances have been reported, the latest from Ohio, where the German emissaries are spreading the reports that after the food pledge cards are all collected the Government proposes to confiscate the private food supplies. These lies are being called as fast as they are reported to headquarters.

## REFUSE DUTY IN HOLLAND

Amsterdam, Netherlands, Nov. 1.—Although Holland is not at war it has its conscientious objectors, and the problem which they constitute may be brought more prominently before the Netherlands Parliament in the coming session. An instance is related of a struggle between a party of soldiers and an objector, who refused to change his civilian for his military clothes. In the end the man sat naked in his cell for a day and a night, and was transferred from one prison to the other in like condition.

Men who have refused to do military duty in the Netherlands now number 150. Some proved not strong enough physically to endure imprisonment. The will of others was broken and they were induced to take service. Others persisted in their attitude despite repeated sentences of months of imprisonment.

## COAL SHORTAGE IN HOLLAND

(By Associated Press)

The Hague, Netherlands, Nov. 1.—Hollanders are using hay boxes or home made fireless cookers to save the diminishing supply of coal. These articles are ordinary wooden boxes thickly lined with hay but in some cases a heavy padding of newspaper is used for packing.

A coal rationing system has been in force in Holland for some time, the amount apportioned to each user being changed as the supply increases now.

or diminishes. Further economy in the consumption of coal is inevitable. The railroad traffic is again to be cut down. The closing of factories for the lack of fuel is increasing and public lighting has been reduced. The use of gas and electric light is to be rationed throughout Holland during the winter months.

The production of the country's own coal mines is only a fifth of the normal consumption. The unrestricted warfare coupled with the conditions imposed by the British government, almost entirely stopped the supply of coal usually imported from the United Kingdom. Germany some time since cut down its coal deliveries to the Netherlands to 350,000 tons a month. The Germans offered to guarantee a certain fixed coal supply again, but indicated that if Holland wanted more it should send Dutch labor to the German mines to raise it. But it was publicly declared by the government that this was impracticable. Fear of complication with the Entente powers would alone probably suffice to keep Holland from adopting this plan.

## BENEFIT DANCE FOR RED CROSS OFFICERS

The employees of the Hotel Rockingham scored a decided social success on Thursday evening when they gave a dancing party at the hotel for the benefit of the Red Cross, and it was a financial as well as a social success for the committee in charge were assured of at least \$250.

The young ladies of the hotel are responsible for the affair and they were gladly given every assistance by Manager Warren, who not only turned over the facilities of the hotel but worked hard himself for the success of the affair.

The dance was held in the billiard hall and this was handsomely decorated for the occasion. Through the courtesy of Captain Wells of the U. S. S. Montana, a crew of decorators were sent over from the ship, with a liberal helping from the ship's signal lockers and they made the hall a very pretty place. In the corridor to the entrance in signal flags they worked out the word "Welcome." Captain Wells also sent over the ship's orchestra, who have been heard at so many patriotic affairs since the ship has been in port, and they gave a concert program early in the evening and played for dancing until midnight.

Dancing was from nine until twelve o'clock and at one time there were about two hundred people present, and three quarters of these remained until the last.

During the evening Miss Jennie Quinn rendered "Somewhere a Voice is Calling" and Miss Mary Flanagan sang "Farewell to Thee." As an encore Mrs. Quinn and Miss Flanagan rendered "Indiana" very effectively.

Later Miss Katherine O'Leary pleased the large audience with "Awakening for You" and then by request "The Rosary" and finally as an encore "The Star Spangled Banner."

The committee in charge of the affair were Misses Mollie Knox, Mary Hickey and Nora Gibbons, and they were ably assisted by every employee of the hotel. The committee are greatly indebted to Captain Wells, Mr. Robert Capslock and Richard E. Hannaford for the floral decorations and all others who generously helped.

From various clubs and organizations gifts of flowers were received for the young ladies and for decorations, and at midnight the committee, in fact, everybody connected with the hotel, were happy, but tired.

## Tell Your Wife Corns Lift Off

Doesn't hurt a bit to lift corns or calluses off with fingers.

Not a twinge of pain or soreness before applying, or afterwards. This may sound like a dream to corn plastered men and women who have been cutting, filing and wearing torturing plasters. Yes! Corns lift off and calluses peel off as if by magic.

A small bottle of freezone costs but a few cents at any drug store. Apply a few drops directly upon your tender corn or callus, and instantly the soreness disappears; then shortly the corn or callus will be so loose that it lifts off.

Freezone dries instantly. It doesn't eat out the corn or callus, but just shrivels it up so it lifts away without even irritating the surrounding skin. Women should keep a tiny bottle handy on the dresser and never let a corn or callus ache twice.

## REASSURING NEWS FROM ITALY

(By Associated Press)

Washington, Nov. 1.—Reassuring news from Rome was received by the department and they admit that while the situation is serious it is not hopeless. Gen. Cadorna's forces are all intact and in a position to give battle now.

## BREAKS A COLD IN A FEW HOURS

First dose of "Pape's Cold Compound" relieves all gripe misery.

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end gripe misery and break up a severe cold either in the head, chest body or limbs.

It promptly opens clogged-up nostrils and air passages; stops nasty discharge or nose running; relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness. "Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.

## "The Frost is on the Pump- kin and the Fodder's in the Shock"

The hours that you would spend on the front porch will now be whiled away in the living room. You'll have greater opportunities for reading and you'll want to read more. Cooler weather is always conducive to study with old or young—and there are many things of world importance continually happening concerning which we should all keep posted.

There will be books and magazines—to say nothing of the daily papers—and to keep these in order there is nothing quite so essential as a good sized library table. Of course you may have a table and the right kind of a table—a lot of you have already visited Margeson Brothers store and made that important purchase—but if, by any chance, you are not so fortunate, let us give you a little tip.

Early last Fall and again during the January market of this year we took advantage of the comparatively low prices then ruling, stocked heavily on library tables. Right now we are showing many different designs in oak and mahogany, beautiful tables, high class, refined; not a cheap looking one among them, and the prices are remarkably low.

You know what has happened to raw materials, to labor, to freight deliveries. Isn't it better—far better—to make up your mind today and get that library table from

64 Vaughan St. Tel. 570

## NEW POSTAGE RATES GO INTO EFFECT TODAY

Local Letters and Those to  
Rye and Newington Cost  
No More.

Today the one cent card postage and the two cent letter postage will be a thing of the past during the war a least, the prices increasing to two and three cents. The only exception to the rule is the continuance of two cent postage for city letters. Letters mailed for various sections of the city and Newington and Rye will require but two cents. However, postal cards will require two cents wherever the destination.

Souvenir post cards will go along for one cent providing they contain no writing other than the address.

The postoffice will continue to keep one cent stamps for the convenience of those who have numbers of two cent stamps and desire a third for letters.

The rate of parcel post remains the same as at present until December 1 when an internal revenue of one cent will be placed on all packages requiring 25 cent postage or a fraction thereof.

## PAUL JONES CLUB ELECTS NEW OFFICERS

The annual meeting of the Paul Jones Club, Sons of the American Revolution was held at the office of George A. Wood on Thursday afternoon at four o'clock with a good attendance and the following officers were elected:

President, Dr. Henry I. Durgin of South Eliot.

Vice President, John K. Bates, Secretary, George A. Wood.

Treasurer, William A. Hodgdon. Chaplain, William Henry Smith.

Auditor, John Seales of Dover. Historian, Charles E. Hodgdon.

Board of Managers, Harry K. Torrey, Dr. William O. Jenkins, Dr. E. N. Eastman, Dr. Fred S. Towle, William L. Mill, Oliver L. Fritch of Portsmouth; Frank M. Gilley of Exeter.

Resolutions were passed on the death of Moses G. Parlier of Lowell, Mass., and Prof. George D. Whittier, both members of the club.

## THE HERALD HEARS

That the new rate of pay in the police department ought to bring out some of the right kind of men for the force.

That the Bldeford druggist who had 650 bottles of Jamaica ginger taken by the sheriff paid dear for keeping the "Jukey."

That he got a fine of \$400 and costs and four months in jail.

That the husband in the Christian Shore district would like to know the whereabouts of his wife.

That the Brooks motor company will have both floors in the building formerly occupied by the New Castle Shoe Company.

That target practice in the lower harbor on Thursday started more than one person and kept the telephone line busy.

That the city drivers at Newburyport want \$3 per day and the ash collectors \$1.00.

That 12 degrees below zero in Wyoming recently ought to remind us of what is coming later.

That the subscribers of the first Liberty loan are wondering what the real bond looks like.

That it's time to forget about the millions in Liberty loan and talk about the price of eggs and potatoes.

That a guard from the army handcuffed to a prisoner landed in the depot this morning as the 8.45 Concord train was pulling out.

That he forgot about being shackled to the other soldier and began a sprint up the track for the train.

That they certainly covered some ground and with much effort landed on the platform steps.

That such was not the best judgment in the pulp.

That the new postage rate will likely have some effect on the sale of souvenir postal cards.

That a local restaurant keeper is using paper plates in order to keep the dish washer from breaking them.

### BRUCE-LAURIAN

Portsmouth Resident Weds at  
Nashua on Thursday.

## HORSES EAT WAR GARDEN CABBAGE

One Owner Makes Good for  
His Animal's Eats.

Some of the owners of the war gardens on the city land are hot under the collar over the vegetable banquet held by horses a few days ago. The animals had a real picnic and feasted for several hours on the choice cabbage growing there. It is understood that the owner of one steppias made a settlement for the damage caused by his horse.

## BEGIN WORK ON THE BIG SIDE TRACK TODAY

Will Make it 3000 Feet to

## ENTERTAINED FRIENDS ON HER 18TH BIRTHDAY

On Thursday, Miss Doris E. Moore, daughter of Mr. and Mrs. Frank E. Moore of Fleet street, attained her eighteenth birthday and in honor of the event entertained twenty of her young friends in the evening. The time was pleasantly passed with music and games. At 9 the assemblage was invited to the dining room which was prettily decorated with Halloween effects, where sandwiches, ice cream, cake, fancy wafers and fruit punch were served. A large birthday cake formed the centerpiece and the young hostess cut and distributed the cake to those present. Miss Doris was the recipient of many costly and useful gifts from her friends, which will bring pleasant recollections of her eighteenth birthday. The young guests took their departure at a late hour, one and all wishing the hostess many happy returns of the day.

## FRANK W. KNIGHT SHOE TALKS

10 Market St. "SHOES OF QUALITY" Portsmouth.

Growing Feet Develop Naturally in These Shoes.

As shoe merchants we feel that we have a particular responsibility to parents. You cannot over-estimate the importance of buying proper shoes for children, for by so doing there is no possibility of foot troubles, just on. Our Orthopedic, natural shape lasts are the only "proper" shoes, for they allow the foot to develop as nature intended. Knight's Shoes are orthopedically correct without the loss of good looks or style.

A fresh stock of Dry Batteries, to fit the different styles of Eveready Flash Lights, received twice a week so you may be sure of obtaining the best results if you purchase from us.
